WARNING: READ BEFORE USING YOUR SEGA VIDEO GAME SYSTEM.
A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

HEROES ARE MADE, NOT BORN

Welcome to Toy Story, a world where toys come to life when people are not present. It’s an imaginative animated fantasy where a unique assortment of toys take on a life of their own and became involved in a series of comic misadventures.

Central to the story is a pull-string cowboy named Woody — and his other toy friends. Woody is six-year-old Andy’s favorite toy and sits in the coveted place of honor on Andy’s bed. Life for Woody is pretty good and it looks like he’ll remain the favorite toy for years to come.

That is, until Andy’s birthday party! Birthdays mean new toys and new toys mean old toys may be forgotten! To be forgotten is one of the biggest fears that all toys share. Anxious to see if Andy received any new toys, Woody sends in the green army men on a recon mission to find out. Soon they hear the news that changes all of their lives as toys — there’s a new toy in town named Buzz Lightyear. Buzz is the latest super-powered-karate-chopping-laser-blasting-space-hera-action-figure and it looks like he’s an instant favorite with Andy!

This comes as a great shock to Woody, who now must cope with being #2 in Andy’s world. His answer is to try to knock Buzz behind the dresser and into obscurity by using R. C. Car. Woody’s plan backfires and he unintentionally sends Buzz out of Andy’s window and into the real world. The rest of the toys see what happens and unite against Woody for sending Buzz to certain doom.

Woody takes it upon himself to rescue Buzz and restore peace to the world of Andy’s toys.
TAKE CONTROL, PARTNER!

You can't be a hero if you don't know how to move. Listed below are the buttons on the Genesis Control Pad you will be using to move Woody. They are: The Directional Pad (D-Pad), Start, Button A, Button B and Button C.

Special Note: Buttons X, Y, and Z on the 6-button Genesis Control Pad are not used in this game.

The general controls for Woody are listed below and all special moves or maneuvers are listed in the following chapters.

D-Pad - Use this button to move Woody around. Press Left or Right to make him walk in those directions. Since Woody is such a tall toy, you may need to press Down from time to time so he can duck under low hazards. You can also press Up (diagonally) on the D-Pad while Woody is using his pull-string to aim it higher.

Buttons A or C - Press either of these buttons to make Woody jump. When Woody is moving hand-over-hand (from an overhead pipe or beam), press either button to make him release his grasp.

Button B - Press this button to help Woody use his pull-string as a lasso! Woody can temporarily tie-up the other toys while he's trying to make it past them. He can also use his pull-string to swing across pitfalls by grabbing hooks.

Special Note: Sometimes he'll need to perform this maneuver a number of times in a row, so you better practice the move until you can almost do it with your eyes closed!

Start - Press this button to pause the action of the game. Press it again to resume game play.

POWER UP!

1. Make sure your Sega Genesis System is set up correctly.
2. Be sure that Control Pad 1 is properly plugged in.
3. Make sure the power switch is turned OFF. Place the Toy Story cartridge in slot and press it down firmly.
4. Turn the power switch to ON. You should see the Sega Title screen, then opening Toy Story screens. If you do not get to the title screen, turn the power switch off and restart the game.

Warning to owners of projection televisions: Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large screen projection televisions.
Not only can you have the adventure of a lifetime while playing the video game, but you can collect cool items while you’re at it! The stuff listed below is spread throughout the game (some pretty easy to find, others...).

- **Tin Stars** Collect these to earn extra health points, lives and continues for Woody.
- **Gold Stars** Collect these to earn instant health points.
- **Cowboy Hats** Collect these to receive an additional life.
- **Continue Flags** You will automatically restart at the point in the level where you reached this marker. Some levels have more than one Continue Flag. In this case you will continue at the last flag you reached before you lost that level.
WOODY
Mild mannered, yet a natural leader among toys, Woody has been Andy’s favorite toy as long as anyone can remember. Losing his well-earned position as the #1 toy to Buzz Lightyear has unhinged Woody a bit. Since his plan to get rid of Buzz backfired, Woody has taken it upon himself to rescue Buzz from the perils of the world outside of Andy’s room. He may just prove he’s the best toy after all.

HAMM
This little piggy can be found near the most interesting and useful of objects. Hamm can be found in Andy’s room, usually near an item that Woody needs to get his hands on. What did you expect from a piggy bank?

ROCKY GIBRALTAR
This toy is based on a former heavy-weight wrestler who was known for his massive strength in the ring. Rocky comes in handy when Woody needs to have something heavy moved.

MR. POTATO HEAD®
The master of facial expressions is the number one critic of anyone in charge. Mr. Potato Head® gets in the way from time to time and always seems to be trying to save face.

ETCH-A-SKETCH™
This silent but helpful character has important information for Woody. Etch comes up from time to time to offer assistance to Woody (when he seems last).

BUZZ LIGHTYEAR
As Space Rangers go, Buzz Lightyear is the top model! The fact that he is a child’s toy may hamper his intergalactic travel plans, but he first must figure this out for himself. Buzz is a spaceman’s spaceman—ready to take on a universe of trouble with a smile on his face and a gleam in his eye! Whether proving his prowess as a flyer or dashing to another heroic space rescue, Buzz has enough daring for a platoon of toys. Who knows, he may just hit it off with Woody.
**R. C. CAR**
This speed demon shows up everywhere, usually just under foot. Woody uses R. C. at first to knock Buzz off of the dresser, but later needs R. C. to catch up to Andy and his family with Buzz in tow.

**GREEN ARMY MEN**
For a platoon of green troopers, these guys sure know how to see red — Code Red! Woody has them perform recon duty at Andy’s birthday party and learns all about his new competitor for Andy’s attention. You never know when these resourceful men in green will show up...

**SCUD**
Not a toy, but that nasty Sid’s rotten little dog. Well, little by human standards, but gigantic from a toy’s point of view. At Sid’s house, the worst fear of any toy is being turned into a chew toy. Scud will do his best to make any toy’s worst nightmare come true.

**REX**
Take the most ferocious dinosaur the world has ever known and give him a score of anxieties and you have Rex. This carnivore wouldn’t hurt a fly. He’s busy working on his roar (he really doesn’t want to sound annoying), and he can always be counted on to give Woody a hand. He also makes one dandy steed for the rough-riding cowboy....

**SQUEEZE TOY ALIENS**
Inhabitants of the arcade Claw Machine, these dizzy little guys have a one track mind — to escape to the world beyond, courtesy of THE CLAW. Woody has to collect the stray Squeeze Toy Aliens as he searches the inner workings of the arcade machine for a way out.

**MUTANT TOYS**
Andy’s neighbor Sid has a nasty habit of creating warped toys from various parts and pieces of several toys. These “Mutant Toys,” although scary looking, really mean well. They just had a rotten role model.

You will meet many other characters in your search to help Woody rescue Buzz. Some may be more familiar than you think!
THE TOY STORY WORLD

There are five fun-filled levels to Toy Story with several stages in each level. Listed in the next few pages are descriptions of each of the stages. Use this part of the manual as a guided tour of Woody's adventure!

LEVEL ONE  ANDY'S ROOM

RED ALERT!
The troops have returned to notify Woody that Andy is on his way back to his room. You have to find a way to get all of the wandering toys back into the big toy box or under Andy's bed before Andy returns to his room. This level is timed, so you better hurry! After all the toys are in place, Woody has to make it to his spot on the bed.

EGO CHECK
The competition is on! Woody has to keep up with Buzz to prove he's just as good as the laser totin' loud-guy. Buzz moves rather quickly — you must keep up with him or you'll have to try, try again. Make it out intact to face your first big boss challenge!

BIG BOSS CHALLENGE
Woody is sad to wake up in the toy box. His imagination creates a nightmare version of Buzz who shoots real lasers. Woody must conquer his fears (of Buzz) to escape this stage.

THAT OLD ARMY GAME
Woody must find a way to marshall the troops to perform a daring recon mission to discover what's up with Andy's birthday party. Get the green army men out of the room with one of the baby monitors by helping them past a few moving obstacles. Woody then has to make it to the other baby monitor to listen in.
THE TOY STORY WORLD, cont.

LEVEL TWO   ANDY’S ROOM, PART II

REVENGE OF THE TOYS
With Buzz out of the picture permanently, the toys align against Woody. They saw Woody knock Buzz out of the window to a fate worse than being forgotten... Now Woody has to make it out of Andy’s room to help Buzz and clear his name with the toys. The big problem here, however, is that ALL of the toys are scared of him and he now must escape a room full of terrified toys!

RUN REX, RUN!
This cowboy has never ridden a panic-stricken dinosaur before, but if it’s the only way out to help Buzz, well then, Woody’s going to give it a go! Look out for low flying paratroopers and a really miffed R. C. Car ready to take Woody out of action!

SPECIAL NOTE: When riding Rex, use the D-Pad to make him run faster or slower by pressing Right or Left.

ANOTHER BIG BOSS AREA
Now that you’ve made it out of Andy’s room, you’re face to face with the real Buzz Lightyear (not just a nightmare version), ready to rock your universe for giving him the heave-ho!

BUZZ CLIP
Woody tries to use R. C. Car to knock Buzz behind the dresser so Andy will forget his new toy (and remember his old pal, Woody). Unfortunately, this effort only creates a whole new headache as Woody accidentally knocks Buzz out of the window!

SPECIAL NOTE: To drive R. C. around, use the D-Pad to steer Left and Right. Press Button A or C to accelerate.
THE TOY STORY WORLD, cont.

LEVEL THREE      PIZZA PLANET

INSIDE THE CLAW MACHINE
Buzz climbed into the claw machine and now it's up to a certain cowboy figure to bail him out. Woody discovers the inner workings of the machine are not toy-friendly as he dashes from one precarious vantage point to another. Be sure to time those jumps well...

REALLY INSIDE THE CLAW MACHINE
Your perspective changes radically in this 1st person view of the Claw Machine! You're looking for a quick way out and it seems the Squeeze Toy Aliens are the only ticket. Maneuver through the warped guts of the Claw Machine collecting your three-eyed buddies to deposit them in the holding bin.

SPECIAL NOTE: Use the D-Pad to move through the machine. Press Button B and Left or Right to sidestep in those directions.

THE THIRD BIG BOSS AREA
Prepare for your inevitable encounter with... The Claw!! You'll have to find a way to knock Buzz out of the Claw's grasp.

FOOD & DRINK
Woody and Buzz must sneak into Pizza Planet the only way two toys can — wrapped up in a Mega Gulp cup and a burger container. Avoid getting hit by falling food, and remember to duck when people walk by. And you thought your room was messy....

SPECIAL NOTE: Press Down on the D-Pad to avoid human contact.
THE TOY STORY WORLD, cont.

LEVEL FOUR    SID'S ROOM

BATTLE OF THE MUTANT TOYS
One of Sid's devious little hobbies is to take parts from one perfectly good toy and use them to create a terrible new scary creation. These Mutant Toys strike fear into the heart of Woody and our cowboy hero must use Buzz's karate-chop action to defend himself. What's a normal toy to do?

ROLLER BOB
Woody rides Roller Bob, a Mutant Toy with a taste for speedy get-aways! This helps because they are both being dogged by Scud all the way to freedom. All Woody has to do is ride Roller Bob before Scud catches him and turns him into toothpicks. The moves you learned riding Rex will come in handy here.

SID'S WORKBENCH O'HORRORS
If you thought The Claw was tough, wait till you see what Sid has in store for Woody! Dodge all the booby traps and hidden horrors lurking about this sinister room and by all means, KEEP MOVING!
THE TOY STORY WORLD, cont.
LEVEL FIVE    ANOTHER ROAD PICTURE

DAY-TOY-NA
The moving van has taken off and Buzz was left behind. Woody must drive R. C. Car fast and furious to save Buzz and reunite with Andy and the toys. Collect energy on the way or you will be left on the side of the road without free towing. Energy can be found along the highway. Collect these while driving to keep R. C. Car going (and going, and going...)

SPECIAL NOTE: To drive R.C. Car around, use the D-Pad to steer Left and Right. Press Button A or C to accelerate and Button B to brake.

LIGHT MY FIRE
Woody and Buzz are trying to catch up to the moving van that contains all of Andy's other toys by hitching a ride on R.C. Car. Try to control this high-velocity team as they scream down the highway.

ROCKET MAN
The final stage involves some pretty tricky flying (courtesy of Buzz Lightyear), and some daredevil maneuvering! Try to find the best spot you can to land Woody and Buzz. If nothing else, these two heroes may have finally learned to get along with each other.
THE MAKING OF WOODY

Pixar, the Northern California-based production company and Walt Disney Feature Animation have combined forces to create the first full-length 3-D computer generated animated feature, Toy Story. You may have seen the film by now, but what you may not have heard is how this pioneering event has hit the 16-bit video game arena as well!

Traveller's Tales, Disney Interactive and Pixar, have collaborated on the title you have in your hands, Toy Story - the video game. In fact, the models used in this game were taken directly from the same sources as those used in the film. When you play Woody in the video game, you really get the feeling that you are Woody, not just something similar to the character you remember in the film.

The process for creating Woody for this video game is identical to the way he was built for the film.

Artists start by making a "wireframe" of the character. This is how the computer initially sees the image. Once the image is approved, the artist uses the wireframe to create a Rough "Polly" (or Polygon), of the character. This is where the areas between the wires are initially filled in. If something doesn't look right with the character, the artist usually can see it at this stage.

Highlights are added to the model at this point. This shows how light is reflected off the surface of the character as well as the specific parts of the character that are affected by small lighting changes. The next step is to add the final texture maps to the character. Everything seen in the game has its own texture, from Woody's flannel shirt to Buzz's helmet.

As you discover Woody's adventures in this game, you will relive some of the funniest and most daring moments from the film. This time, however, you control the outcome. While the story and goals remain true to the movie, it's up to you to pull Woody's string and make him the true cowboy hero he was meant to be!
Some Forms Of Danger
You Better Not Duck!
